

## **Internship Grant Opportunity for International Graduate Students Offered by the Faculty of Science, Prince of Songkla University**

The Faculty of Science is pleased to announce the Research Internship Program for the year 2025/26 to promote and boost research on graduate level, and to enhance prosperous international collaborations between the Faculty of Science, Prince of Songkla University and institutes abroad. This opportunity is open to students from higher education institutes in the field of natural and applied sciences. Please find details and conditions below.

### **1. Application Requirements**

- 1.1 The applicant must hold a Bachelor's degree or above.
- 1.2 The applicant must be a current graduate student enrolled at an overseas institution and maintain active student status throughout the intended internship period.
- 1.3 The applicant is free of infectious diseases, and their mental and physical health are conducive to actively participating in research activities.

### **2. Terms and length of the Internship Grant Support**

- 2.1 The Internship Grant Support will be awarded for internships from 4 to 6 months.
- 2.2 The applicant agrees to do the internship over the whole period within the self-specified time.
- 2.3 The stakeholder needs to apply for a Non-immigrant "ED" visa (study permit). Scholars entering Thailand on a tourist visa cannot enroll and may have their scholarship canceled.

### **3. Internship Grant Support and amount of available stipends**

- 3.1 The stipend serves as a support for the living expenses and includes a bench fee waiver. The stipend counts a total amount of 6,000 THB (about 180 USD) per applicant per month with the length according to the research plan of 4-6 months. The stakeholder is responsible for additional costs such as accommodation.
- 3.2 Up to 18 stipends can be granted.

### **4. How to apply**

- 4.1 A total of 18 placements are available across the fields of Biology, Chemistry, Biochemistry, Geophysics, Statistics, Physiology, Physics, and Polymer Science

and Technology. For more details about the placements, please scan the QR code provided.

4.2 Complete the Application Form (scan via QR code) and upload the following documents.

4.2.1 Curriculum Vitae (CV);

4.2.2 Motivation letter stating your skills, software knowledge, and research focus during the internship, signed by home advisor;

4.2.3 Main passport page;

4.2.4 Study record (Transcript); and

4.2.5 Additional files if requested.

**Note:** All uploaded documents must be complete and issued in English language or bilingual with English, otherwise your application will be disregarded.
