Dear Sir / Madam,

On behalf of the Consulate General of the Kingdom of the Netherlands in Ho Chi Minh City, I would like to invite Master students from your University to apply for the **Eindhoven Semiconductor Summer School (ESSS): Advancing Innovations in Electronics & Photonics from 26-30 August 2024** in Eindhoven, The Netherlands.

This is the first time this course is open to participation by Vietnamese students. Flights and accommodations for five (05) selected students will be sponsored by the Dutch government. Participation fee is covered by the Eindhoven University of Technology (TU/e).

The program is packed with lectures and company visits to world leading enterprises such as ASML, NXP, and SMART Photonics. Students in Masters of STEM (Science, Technology, Engineering and Mathematics), who want to learn about the latest technologies in semiconductors in Europe, are encouraged to apply.

Since the application deadline is set for 19 June 2024, we highly appreciate your prompt support in disseminating and promoting the course to your students in relevant Master programs.

The details can be found in the attachment. Should you need any further information, please contact osidharta@nuffic.nl from NUFFIC Southeast Asia, the organisation which is trusted to facilitate the selection, or our Consulate General.

Yours Sincerely,

Daniël Stork
Consul General
